

EastSide ASC Community

There has been documented evidence that Ambulatory Surgery Centers (ASC's) play a pivotal role in moving services out of hospitals and into less expensive yet clinically appropriate settings.

It is important for EastSide Community ASC's to maintain high-quality surgical services, topnotch patient care and cost-effective alternatives through clinical educational conferences.

Evergreen Surgical Center offers its first contribution to the EastSide ASC community by presenting 5 exceptional series that have impacted ASC's role in Healthcare.

EastSide Ambulatory Surgery Center Clinical Conference

Saturday, February 27, 2010

8am-3pm

At

Evergreen Hospital Medical
Center

Red Auditorium

Phone: 425-899-5655

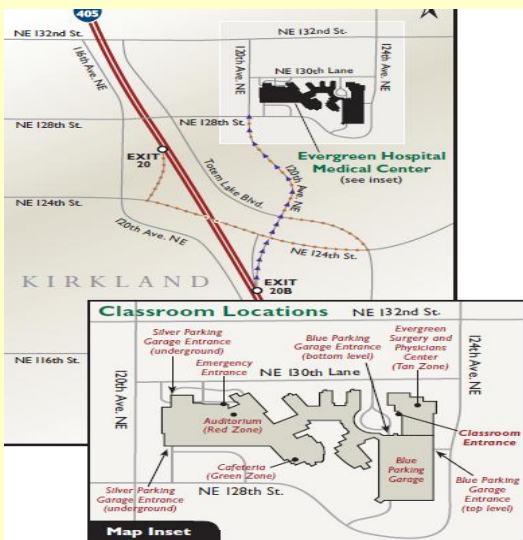

Web site:

(<http://www.evergreensurgicalcenter.com/>)

Course Objectives

- Identify the benefits, indication and contra indications for pain management
- Identify the potential dangers associated with using X-ray in the operating room
- Identify the chronic rhinosinusitis symptom most improved with Balloon endoscopic sinus surgery.
- Understand common medical risks associated with travel to developing countries

Red Auditorium in Red Zone Follow signs to the **Main Entrance** and park in the **Silver Parking Garage** (please park on level P2 or P3). Go to the Emergency Services elevator and take it to the 1st floor. When exiting the elevator, turn left down the hallway and the auditorium will be to the left. Classrooms are located in the hallway adjacent to auditorium.

Program

This education forum is designed for staff that cares for surgical patients in outpatient settings. The information is multispecialty focused and would be pertinent to pain department, perioperative, postoperative, operating room, and adventures.
